"Clean Up the Bowels and Keep Them Clean"

There are many remedies to be had for constipation, but the difficulty is to procure one that acts without violence. A remedy that does not perform

by force what should be accomplished by persuasion is Dr. Miles' Laxative Tablets, After using them, Mr. N. A. Waddell, 315 Washington St., Waco, Tex.,

"Almost all my troubled with constipation, and have tried many remedies, all of which seemed to cause pain without giving much relief. I finally tried Dr. Miles' Laxative Tablets and found them ex-cellent. Their action is pleasant and mild, and their chocolate taste makes them easy to take. I am more than glad to recommend them."

"Clean up the bowels and keep them clean," is the advice of all physicians, because they realize the danger resulting from habitual constipation. Do not delay too long,

but begin proper curative measures. Dr. Miles' Laxative Tablets are a new remedy for this old complaint, and a great improvement over the catharties you have been using in the past. They taste like candy work like a charm. A trial will convince you,

Dr. Miles' Laxative Tablets are sold by all druggists, at 25 cents a box containing 25 doses. If not found satisfactory after trial, return the box to your druggist and he will return your money. MILES MEDICAL CO., Elkhart, Ind.

REV. CHAS. SAGER SAYS

Ms. C. A. ABBOTT.

So Ann St., New York City.

Dear Sir: I have known for over 40 years of the effects of Wikson's Remedy [Wilson's Preparation of Hypophosphites and Blodgetti] in cases of pulmonary troubles. At this point I will say to you what you have not before known of; that 40 years since, while I was a resident of N. Y. City, I was severely ill with lung trouble. Physicians said I was a consumptive and my family physician told my wife that he thought I could not recover. My attention was directed to the Wilson Remedy, which I used with splendid effect. I have been on my feet and at work ever since my care. Yours truly.

SCREAM OF SPOTTED HYENA

Shrill Cry of This Animal One of the Most Uncanny Sounds of Nature.

The shrill falsetto scream of a spotted hyena coming in to feast at a "kill' is one of the most uncanny sounds in nature—so writes Maj. J Stevenson-Hamilton, who has had ates and distributes it to every many interesting opportunities of observing these animals while warden nourishing and restoring them to of the Transvaal game reserves, in his book, "Animal Life in Africa."

Soon after dark the hunter who is watching near a carcass will hear a patent medicine, but is nature's long-drawn howl coming from some where far away in the forest. It is answered from another side, and presently the chorus is taken up from all directions. As the night draws on, the cries approach, until at last one issues from the bush close at hand. Now a stealthy shape shows itself for an instant on the edge of the bush, a maniacal shrick smites the ear, and is followed by an interval of dead silence. Suddenly there comes a babel of the most extraordinary noisesweird chucklings, screams of merry laughter, and occasionally the typical long-drawn "whoo-oo!" the first syllable pitched in a deep bass key. while the second rises to a piercing

rushes forward and seizes a portion known. of the carcass, and then, if the watch er does not betray his presence, the whole troop closes in upon the balt. A gunshot may disturb nobler game, and the hunter must therefore drive Garden, Mich., states: "From my own away the scavengers with stones.

I was fishing in the Sabi one evening a few hundred yards from the kidney trouble. My father was cured compound fence, and the shadows had already gathered before I began to retrace my steps. Just as I was leaving the bank, a most extraordinary series of sounds came from the recesses of a bush 50 yards away. There was a shrick as of some human being in distress, followed by a number of low gurglings and chucklings, and

then another shriek. Knowing that no natives were in the bush, I stood wondering what it could be, and as I listened to the noise, several of my servants, with assagais and lights, came running at top speed through the compound gate. They stopped on seeing me, and said, "We thought some one had been taken by a lion."

The sounds still went on, now resembling the wails of an infant, when suddenly the familiar "whoo-oo!" set all doubts concerning the nature of the animal at rest.-Youth's Compan-

PUT YOURSELF INTO TASKS

Only in That Way Can You Obtain the Real Pleasure of Joy of Creating.

While every man who makes a living is not a genius, yet the real joy of creating can belong to each of us put into farming, or banking, or our school work, the sense of making something, we get the great treasure out of it. When we fill any task with ourselves, we make something. A girl says, "I made the room tidy," which simply means she put some thing of herself into the disorderly room, and so beautified it. After she had made it tidy, it reflected something of herself; it looked some idea of order such as he had in her own mind. A boy says, "I made a good recitation in school yesterday;" and he is right, for, although the lesson was already there, it had to wait for him to come along and make it s recitation.

So it is everywhere. Making anything means, no matter how simple the task, that we brring out some thing that did not exist before; and that that something is to some degree like the maker of it. We get out what we put in. If any one wants to be miserable, the surest way is just to do things without putting his whole heart and self into them. Think of the mere outside of the tasks, and they are not worth doing. But once put yourself into them, and all that is changed.-From George Lawrence Parker's "Making a Living" in St. Nicholas.

Embarrassing.
An amusing incident happened, not long since, in one of the principal squares before the station at Zurich, Switzerland. A well-dressed young woman, wearing high-heeled boots, was crossing the street when her heel became caught in a tramway line where several branch lines cross. A crowd collected around the struggling girl, and tramcars stopped while a gendarme vainly tried to free the boot, while the girl indignantly refused to take it off. As more tramcars were delayed and the crowd increased, a gendarme cut the bootlace and pulled out the little foot, and then the crowd became hilarious—the slik stocking was full of holes.

Truth and Progress

Whoever hesitates to utter that which he thinks the highest truth, lest it should be too much in advance of the time, may reassure himself by looking at his acts from an impersonal point of view. . . . Not as adventitious will the wise man regard the faith which is in him. The highest truth he sees he will fearlessly utter. Knowing that, let what may come of it, he is thus playing his right part in the world—knowing that if he can ef-fect the change he aims at—well, if not-well also; though not so well-Herbert Spencer,
